PROFESSIONAL SUMMARY

Computer Engineering undergraduate with strong foundations in Data Structures, Algorithms, Distributed Systems, and Full-Stack Development. Experienced in designing scalable cloud-native applications using Java, Python, JavaScript, React, Node.js, and AWS. Passionate about building reliable software systems and solving large-scale engineering problems.

EXPERIENCE

Software Engineering Intern (Certified)

May 2026 – Jun 2026

HackerRank

Remote

- Successfully completed HackerRank's Software Engineer assessment, demonstrating proficiency in data structures, algorithms, object-oriented programming, and software engineering fundamentals.
- Validated technical competency through assessments covering Java, SQL, REST APIs, debugging, and problem-solving aligned with industry standard software Development practices.

Open Source Contributor

May 2026 – Jun 2026

GirlScript Summer of Code (GSSoC'26)

Remote

- Collaborated with distributed development teams to contribute features, resolve issues, and enhance open-source projects through GitHub-based development workflows.
- Submitted production-quality pull requests, participated in code reviews, improved documentation, and adhered to collaborative software engineering best practices using Git version control.

PROJECTS

Quick AI - AI-Powered Content and Image Generation Platform

Jul 2025 – Aug 2025

React.js, Node.js, Express.js, PostgreSQL, Clerk, OpenAI API, Tailwind CSS, Vercel

- Developed an AI platform with 5+ tools by integrating OpenAI APIs for text and image generation.
- Designed a relational PostgreSQL database for user management, subscriptions, and AI request history.
- Implemented Clerk authentication, role-based access control, and optimized database queries for improved backend performance.
- Designed, developed, and deployed a full-stack application on Vercel using RESTful APIs and modular architecture.
- Live Demo** | **GitHub**

Prescripto - Doctor Appointment Booking Platform

Oct 2025 – Nov 2025

React.js, Node.js, Express.js, MongoDB, JWT, Razorpay, Tailwind CSS

- Developed a full-stack healthcare platform with secure role-based access for Patients, Doctors, and Administrators.
- Designed RESTful APIs for appointment scheduling, user authentication, doctor availability, and patient management.
- Integrated Razorpay payments and developed an administrative dashboard for appointments, users, and transaction records.
- Improved backend performance through efficient MongoDB queries and asynchronous request handling.
- Live Demo** | **Admin Dashboard** | **GitHub**

TECHNICAL SKILLS

Languages: C, C++, Java, Python, JavaScript

Frontend: React.js, HTML, CSS, Tailwind CSS

Backend: Node.js, Express.js, REST APIs, Role-Based Access Control (RBAC), Microservices

Databases: PostgreSQL, MongoDB, SQL

Cloud and DevOps: AWS, Docker, Kubernetes, Git, GitHub, Vercel

Core Subjects: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks, System Design

EDUCATION

B.Tech in Computer Science Engineering

Sep 2023 – 2027

GL Bajaj Group of Institutions, Uttar Pradesh

Central Board of Secondary Education (CBSE)

Class XII

Apr 2022 – Mar 2023

Class X

Apr 2020 – Mar 2021

ACHIEVEMENTS

- Secured **Institute Rank of 66** on **GeeksforGeeks**.
- Solved **500+** DSA problems and achieved a Contest Rating of 1656. **LeetCode**.
- Recognized as one of the **Top 10 coders** in the college.

CERTIFICATIONS

- Google Cloud Agentic AI (October 2025) [\[Link\]](#)
- Programming In Java, IIT Kharagpur (Jan 2025 – May 2025) [\[Link\]](#)
- Deloitte Australia - Technology Job Simulation (July 2025) [\[Link\]](#)
